Professional Summary

Full Stack Engineer with 1+ year of experience building AI-powered SaaS platforms. Experienced in React, Next.js, backend API architecture, and multi-model LLM integrations with end-to-end ownership of scalable frontend systems and intelligent automation workflows.

Experience

Full Stack AI Developer Dec 2024 – Present
TechCurators (TC Group Company), New Delhi

- Owned end-to-end development of production features across frontend systems, backend APIs, and AI workflow integrations.
- Led scalable frontend architecture using Next.js, React, JavaScript, and Tailwind CSS for AI-driven SaaS platforms.
- Developed AI Visibility Platform integrating 4 LLM providers (OpenAI, Gemini, Perplexity, Groq) with scoring logic, ranking dashboards, and analytics interfaces.
- Designed and implemented OAuth 2.0 authentication and integrated Google Search Console APIs for secure domain verification and automated traffic data extraction.
- Engineered FireReach with dynamic filtering, backend business logic, and workflow execution to streamline lead discovery and enrichment.
- Led frontend development for Rabbitt Learning, building scholarship test workflows, resume upload interfaces, and responsive UI systems.
- Designed and integrated agentic AI workflows enabling automation, resume analysis, content generation, and AI-powered reporting.

Web and App Developer Intern Jun 2024 – Aug 2024
Indian Institute of Technology (IIT) Patna

- Developed responsive web and mobile applications using React and Flutter and improved API integration across modules.

Projects

Disease Tagging using ECG and Fundus Imaging

- Built a multimodal AI system combining ECG signals and fundus images for cardiovascular disease detection.
- Applied machine learning and signal processing techniques and evaluated performance using accuracy, precision, and recall metrics.

Technical Skills

Languages: JavaScript, Python, Java, SQL

AI and Automation: LLMs, Agentic AI Workflows, Prompt Engineering, Multi-Model AI Integration

Frontend: React, Next.js, Tailwind CSS, HTML, CSS

Backend: REST APIs, MongoDB, MySQL, Authentication, Workflow Logic

Tools: Git, Linux, Firebase, Vercel, Figma

Education

B.Tech in Computer Science and Engineering 2021 – 2025
University of Petroleum and Energy Studies (UPES) CGPA: 9.1 / 10.0

Certifications

AWS Certified Solutions Architect – Associate (2025)

Microsoft Certified: Azure AI Fundamentals (2023)
